Kent Daniel

Software Engineer

Melbourne, VIC 3000 • kentdaniel0328@gmail.com • + 61481753877 • LinkedIn • Github

TECHNICAL SKILLS

- Full stack development: React, TypeScript, Node.js, Context API, HTML, CSS, Next.js, TailwindCSS.
- Cloud & DevOps: Kubernetes (K8s), Terraform, Docker, CI/CD (Buildkite, GitHub Actions), AWS (Lambda, MSK, Batch, SQS, ECS, Cloudformation), GCP (BigQuery, CloudRun), Kafka
- Testing & Operations: TDD, System Health Monitoring, Splunk, Testing (Jest, Cypress), Selenium.

PROFESSIONAL EXPERIENCE

Associate Software Engineer **Melbourne , Victoria**

REA Group (realestate.com.au) **February 2025 - present**

- Build high-quality features across microservices and event-driven architecture, using React/TypeScript, Kotlin (Spring Boot), Python, and AWS.
- Productionise a config driven data ingester tool to support multiple data schemas and file types with AWS Batch, and Airflow. Reducing new data schema onboarding lead time by 50%.
- Led a data dashboard initiative, prototyping a low-code solution that fast-tracked delivery and reduced L3 support tickets through improved data observability.
- Spearheaded a technical spike and knowledge-sharing for migrating workloads to an in-house Kubernetes (K8s) platform, directly influencing the team's migration strategy.
- Set up a scalable kafka infrastructure with AWS MSK and Glue Schema Registry to enrich 2M+ user profile data in real time.
- Collaborated with Heads of Product and Engineering Managers to lead a winning Hackday project through the internal incubator, proposing and implementing technical solutions to transform a hackathon project to an AI experiment to make property listings interactive.
- Delivered 4 knowledge sharing sessions on Serverless AI coding agents, fine-tuning YOLO model, and Google Cloud Run, contributing to high performance culture.

Freelance Software Engineer **Melbourne , Victoria**

Self Employed **September 2023 - Present**

- Pitched and delivered a contract project with a local Melbourne grocery store to build an automation for their vendor management process, built internal dashboard with Next.js, React, Supabase and Google Cloud Run.
- Developed and maintained Magic Regex Generator , a web application that generates, executes, and tests regular expressions using an AI coding agent , built using Next.js, React, AI SDK, Posthog for analytics, and Cloudflare Durable Objects. The application was launched to Product Hunt and has over 250+ Monthly Active Users to date.
- Served as the lead developer and consultant in a team of 3, conducting UX workshops and planning team sprints using JIRA. Developed and implemented an end-to-end internal software application for managing and recording contracts and legal documents using React, Typescript, Firebase, and GitHub Actions for CI/CD. This resulted in a time-saving impact of 45%.

Monash Innovation Guarantee **Melbourne , Victoria**

Microsoft **January 2024 - February 2024**

- Participated in the Monash-Microsoft partnership program, working in an interdisciplinary team of 7 to develop a solution for an AI-integrated student experience, serving as a product manager and designer.
- Pitched "MonMate" to 5 Microsoft partners—a personalized AI-powered student companion designed to monitor course progression, check in with students, and assist in course selection, aiming to improve student retention rates in Australian universities.

Intern Software Engineer **Melbourne , Victoria**

Reece Group **June 2023 - December 2023**

- Developed full-stack iOS applications using UIkit and the MVVM pattern. This included UI development, backend integration, analytics, and testing.
- Developed full-stack web and backend applications across 11 Github repositories using Angular, Spring Boot microservices, and AWS event-driven architecture.
- Achievement: Spearheaded the development of a mobile app MVP with OCR and NLP technology, which made form filling easier. This was showcased in an all-hands demo only within 2 days.
- Achievement: Implemented an API optimisation mechanism that improved service response speed by 15%.

EDUCATION

MONASH UNIVERSITY **Melbourne , Victoria**

Bachelor of Information Technology in Software Development (3.66 GPA) **2022-2024**

Teaching Assistant **Melbourne , Victoria**

Monash University **February 2024 - June 2024**

- Taught 3rd year level unit FIT3178 iOS development with Swift and UIKit. Responsible for running one of the lab classes with 15 students.

PROJECTS

Insightflow

VICHACK 2024 •https://devpost.com/software/insightflow • September 2024

- InsightFlow is a platform designed to streamline the process of user research by automating the analysis of qualitative data using LLM and clustering algorithms. The user would be able to chat with the collected user feedback and get fact-grounded responses.
- We used LlamaIndex and Supabase vector store for the RAG pipeline, and K-Means clustering algorithm with Scikit-learn on the text embedding to improve retrieval and metadata generation

WheresMyPet

UNIHACK 2024 • https://devpost.com/software/where-s-my-pet • February 2024

- Developed "Where's My Pet," a web app that helps reunite lost pets with their owners using AI for image matching.

- Built using AWS SageMaker, Lambda, S3, SNS, API Gateway, JavaScript, Node.js, React, and TailwindCSS within 48 hours.

PROJECT EXPERIENCE

Student Fellow **Melbourne , Victoria**

Startmate **July 2024 - August 2024**

- Selected as one of 300 fellows for the competitive Startmate student fellowship program, where I collaborated with a team to develop and pitch Cuppabun, a platform designed to enhance cafe-goers' experiences and provide cafe owners with analytics and marketing tools.
- Led customer interviews and surveys, using data-driven insights to validate and refine the business model and UI/UX design, which resulted in 70+ sign ups on the wishing list only 8 days since conception.
- Received one-on-one mentorship from eight industry leaders from companies such as Canva, LaunchVic, GitLab, and CultureAmp, gaining insights that directly influenced the startup development and strategy.
